## Introduction

The volume listing the Members of the Royal Society of British Artists who exhibited from the inception of the Society in 1824 to 1892 appears to have satisfied a considerable need for a record of the period and has resulted in numerous requests to bring the information up to date as far as is possible.

The publishers asked if I would assist in this task and I am deeply indebted to the archivists who have spent so much time and care in analysing the information from the catalogues of the Society.

This second volume will bring the record up to 1910 and a third volume is being prepared to cover the period up to 1930.

I hope this volume will be as satisfactorily received as its predecessor and will prove equally useful.
